

Just checking the box with COBRA administration?

Add value to your current and new employer clients by outsourcing COBRA administration with the IMS comprehensive solution:

IMS will notify your clients' carriers directly. We'll even remit premiums to carriers.

When COBRA administration is not tied to a specific insurance carrier, there is no disruption when an employer changes carriers.

We accept any file feed or even paper notices from employers or brokers.

Employers and brokers can view all notifications and payment dates online. Extensive online reporting available.

Fully-compliant, end-to-end notification services — from initial rights notifications to COBRA information packets to monthly participant notices, we manage everything.

Robust Participant Experience gives COBRA participants 24/7 access to data, alerts, and notifications

Access

Online member portal offers 24/7 access to plan information

Enroll

Online election options allow for easy enrollment

Pay

Electronic payment options and 24/7 access to payment & plan history and data

IMS offers easy implementation and customization.
